Is the 9-euro ticket also valid for first class local rail services (SPNV)?

The 9-euro ticket is valid nationwide in second class carriages. Conditions deviating from existing subscription tickets only apply to the contractually agreed tariff or service area. Subscribers with a first-class ticket can therefore only use their 9-euro ticket within the original area of validity. Outside that area, the 9-euro ticket is automatically valid as a second-class ticket without extended conditions.

Can I lend my 9-euro ticket to someone else?

The 9-euro ticket is a personalised ticket and is not transferable. Conditions that deviate from existing season tickets are only valid for the contractually agreed tariff or service area.

III. Take-along restrictions

Can I take children with me free of charge on my 9-Euro-Ticket?

Children under the age of 6 travel free of charge when accompanied by an adult and do not need their own ticket. Children over the age of 6 will need their own 9-euro ticket. Any rules on taking children with you on your existing subscription ticket will continue to apply to the contractually agreed tariff or service area.

Can I take my dog with me?

The 9-euro ticket is only valid for the person who bought it. The 9-euro ticket does not automatically entitle the holder to take dogs with them free of charge. Please note the conditions of carriage for animals for your local public transport company. Any rules on taking dogs with you on your existing subscription ticket will continue to apply to the contractually agreed tariff or service area.

Can I take a bike with me?

You can get timetable information directly from local and regional transport companies (e.g. from their websites or apps).

Why is the 9-euro ticket being introduced?

The 9-euro ticket scheme has been launched by the Federal Government as part of a package of measures to cushion consumers from the rising price of energy and fuel. The heavily discounted ticket will be available for the three months of June, July and August 2022.

Who is financing the 9-euro ticket?

The 9-euro ticket is a one-off special promotion, conceived and financed by the Federal Government as part of its relief package.

Where is the “9 for 90” ticket?

The name “9 for 90”, which has often appeared in the media, is misleading; an offer of 90 days of local transport use for a total of 9 euros was never under discussion. The price per month is 9 euros.

What happens after August 31, when the 9-euro ticket scheme ends?

The 9-euro ticket scheme ends on August 31. From September 1, prices for subscription tickets return to normal. New customers can find out about follow-up offers from their local transport company.

Won't buses and trains be over-crowded during the three months of the scheme?

In the three months of the 9-euro ticket scheme, buses and trams will probably be more crowded than in recent months. In particular, the additional passengers travelling on 9-euro tickets this summer will mean that buses and trains to major tourist destinations and in tourist regions will sometimes be very crowded. Unfortunately, the transport companies cannot increase the number of buses, trains and drivers at such short notice. As a result, public transport will sometimes be fuller during this time. If you want to use your 9-euro ticket to travel in your free time or on holiday, please plan your journey flexibly so that you can take a train later if necessary. Local public transport companies will use all the buses and trains they have available.

Will there be more buses and trains running?

An increase in public transport capacities, i.e. more buses and trains, is only possible within the limits of the buses, trains and drivers currently available to the transport companies. The industry will make sure that everything that can run is being used during the three months of the scheme.
